## You asked. We listened.

Following the success of our inaugural Forum in Vancouver, the First Nations Investment Forum is coming to Ontario.

Join us this November in Toronto as Indigenous leaders, capital providers, industry, and government come together to advance major investment and partnership opportunities. The 2026 Forum will feature expanded programming and new, dedicated networking opportunities designed to foster meaningful connections, facilitate deal-making, and support long-term partnerships.

## Participants will gain access to:

- ◆ Exclusive networking sessions connecting First Nations, industry, and investors
- ◆ Opportunities to explore equity partnerships and major projects
- ◆ Direct engagement with industry leaders, financial institutions, and decision-makers
- ◆ New relationship-building opportunities to support Indigenous economic growth

Building on the momentum of Vancouver, the Toronto Forum will continue to strengthen connections and create new pathways for Indigenous investment and ownership.
